The ladies of the Civic League are a bunch of optimists, they having had Public Park plowed up with the purpose, as we understand it, of grassing it. Perhaps some of the older members of the league remember that it has rained in Hondo, and are expecting another phenomena of like character in the near future.

Fritz Senne of Yancey, we understand, has sold his noted race mare Katie Flyer, to Mr. Miller of Austin, the consideration being \$450.00. The sale, however, is contingent upon Katie Flyer not being injured in her coming race with Sleepy Joe, which is scheduled for next Saturday, Aug. 8th. Should she come through this race without injury this noted mare will not again appear on the race course in this county but will be trained as a polo player, her new owner being a great polo fan.

Get your brick bats ready. Some optimists, and they are not newcomers either, are predicting good rains for this immediate section within the next few days. While everyone hopes their predictions will come, it would be well to have your brick bats ready for use in case they prove false prophets. False prophets were stoned in olden times, and it is said history repeats itself. According to the weather-wise we are in for good rains, commencing between the fourth and tenth of the coming month, and thence and throughout the coming fall. If we receive half of the rain promised us for the immediate future, then good old Medina County will come in for its own again.

Mesdames Roland Chancey and H. S. Bulgerin, and Messrs. J. E. Allen and Raymond Martin composed a party that visited in San Antonio Tuesday. While in the City Mr. Allen had his eyes treated by an oculist, and we are pleased to state he received considerable benefit.

County Clerk Jungman, and O. H. Miller, Hondo's land man, visited the Somerset oil fields last Sunday. If they went down there to buy a bunch of oil wells they have since changed their minds as they found nothing in that field to equal what we have right here in Medina County.

Messrs. Albert Hornung, Clyde Holloway and Robert Richter returned Saturday from a several days outing above Medina Lake. They were lucky fishing Friday night and brought with them a good supply of fresh fish in their ice boxes.

County Agent Forgason and Mrs. Forgason, are spending the week at the A. & M. College, taking in the Farmers' Short Course at that institution. They made the journey in their car.

Unless some thing unusual occurs in army circles Sergeant English and family will spend three years at Honolulu, and the lady's parents are somewhat grieved over the long separation from their daughter, Miss Willa Mae Gaines for a while contemplated accompanying the Englishes to their island home, but too much tied tape discouraged her, and she concluded to forego the journey.

Edgar Rieber and family were down from the Tarpley section last Saturday. Some of the farmers up there have fair corn crops while nearby crops were burned up.

THE INCREASING BUSINESS of this BANK is an indication that the service it renders is satisfactory. If not already a patron, may we not have your account? We give our customers as liberal accommodations as is consistent with sound banking.

As the result of an accident that occurred Monday at the new building that is being erected by Mrs. Leinweber, John Britsch, one of the workmen employed, is suffering from several contusions, and it is almost a miracle that he escaped with his life. While the ceiling joists and rafters were being drawn up one of the joists slipped off its rest, falling and bringing all the other joists down with it. Mr. Britsch was knocked out for a while, but the physician called found no fractured bones or other serious hurts, and he is again up and around. A colored man, who was in the building at the time escaped injury. In fact, we are told by the time the falling timbers reached the ground he was half way across the street.

Mr. and Mrs. E. J. Murray know the best town in Texas, and the best people on earth, and they have cast their lot here. They have purchased for themselves a pretty homesite of some four acres in the north part of town and are already as busy as cranberry merchants improving their property. It is our understanding that a cheap structure will be the first to be erected which will furnish them a temporary home while a more pretentious residence is being built. The people of Hondo welcome Mr. and Mrs. Murray to their midst and trust their residence here will be the most pleasant epoch in their lives.

Rev. and Mrs. Horace M. King are here from Dallas, the guests of Mrs. King's mother, Mrs. Ella Woolls, and other relatives and friends.

The trip to New Mexico was made in their car, and it will probably be next February or the early days of March before they again return to their home in Hondo.

Quite a number of Hondo people were Castroville visitors Sunday. Making up the several parties were Mr. and Mrs. Earl Boon, Lorraine Heath, Sidney Fly, Lucille Boon, Mr. and Mrs. Oscar Miller and children, Bruce, Alice and Charlotte, Travis Kimmey, Earl Lacy, Elvira Rothe and Miss Good of Pasadena, David Holloway, Walter and Hugh Meyer, Mr. and Mrs. H. V. Haass, Misses Irene Haass, Dutz and Lucy Davis, Mr. and Mrs. Roy Carter and children, Ada Belle and Fay Iris.

Mrs. Bettie Merriwether has disposed of her household furnishings and has leased out her home and for the future will make her home with her daughter, Mrs. G. C. Goff, in San Antonio. While the people of Hondo regret the departure of this estimable lady from their midst, all wish for her happiness in her new home.

Mrs. Walter Crow and children returned last Saturday from a visit to her sister, Mrs. Emil Bendele. While away Mrs. Crow also visited relatives and friends at Devine. She was accompanied home by her nieces, Misses Florence and Elenora Bendele.

Mr. and Mrs. Origin Crow are now visiting Mr. Crow's mother, Mrs. W. Crow, and other relatives and friends. They will leave shortly for Lytton Springs, Bastrop County, where they will make their future home.

The Luling Blues, the colored baseball club of Luling, will be here tomorrow to try and extract the claws of the Hondo Black Tigers. As the Tigers will object to losing any claws, a hard fought game is in prospect. It will be a double-header, at 10 a. m. and 3:30 p. m.

Mrs. Tom McCall, whose illness has caused uneasiness to the people of Hondo, was reported somewhat improved Friday morning. Mrs. McCall, in her more vigorous days, was the ministering angel at the bedside in many Hondo homes. She has the sympathy of our people in her illness and all hope that she will soon again be enjoying her normal health.

Adolf Hoffman, field secretary and organizer for the State Association of Texas Pioneers was in Hondo Thursday in the interest of the organization. It is our understanding that anyone who has resided in the State for forty-five years is eligible to membership. The purpose of the organization is to cement a bond of friendship among the old timers, and to add what ever they can to the early history of the State. A local branch of the Association will possibly be organized here at an early date.

Farmer's Short Course.
The Farmer's Short Course at Tex-
as A. & M. College will be held in
week beginning July 27. This
week a feature of A. & M. work
is a great many years, and it is
difficult if there is anything done
the College of more far-reaching
effect. Usually there are about 3-
men, women and children as-
sembled at the College, practically
all of whom are from the farms, to
study the problems of the farms.
There is something going on all the
time of intense interest to the par-
ticular class for whom the work is
designed. Men and women who have
a life study of the various farm
problems in brief lectures and opin-
ions and experiences are freely ex-
changed. The men are interested in
the farm itself; the women, in the
affairs, and the children—both
boys and girls—give time to con-
sideration of their own problems of
farm and home. It is impos-
sible for any one to spend the week
without getting something that
is worth more than the cost of the
stay.

Farm Writers' Conference.
For several years writers on agri-
cultural papers and editors of coun-
try weeklies have been meeting at
the Station during the Farmers'
Short Course week to talk over the
problems of interest to those who con-
sider papers for farmers to read.
The meetings are growing in size
and interest every year. The ex-
change of attending them is very small
the profits in the way of ideas
are large. Those who meet
have about the same interests,
the meetings become very prac-
tical in character. The writer was
last year and hopes to go back
summer, for he found that there
is a genuine interest from which
gathered many ideas that were
worth while. The time cor-
responds with the meetings of the
farmers and the morning are left
so that the newspaper folks
go to the farmers meetings and
at first hand how they handle
the problems. If yours is a paper
for farmers you should attend these
conferences that begin July 27 at
the Station.

Letting Acquainted by States.
The Austin Rotary Club has start-
ed a movement that it might be well
other places, even the small
ones, to try. Members of the club
will each state sponsor a picnic to
bring all the people of the country
to that state are invited. The
clubmen held the first picnic to
about 200 from Alabama went.
One from Alabama was en-
couraged to get acquainted with others
were natives of his State, tell
Alabama stories, sing Alabama songs,
have a general Alabama good
time. The next week was set aside
for the Arkansas people, and so on
to the list of states. As each
state takes its lunch and all the
people are spread together, there
is little trouble other than in arrang-
ing for a family picnic. All that is
needed is for some club to take the
lead and see that a committee from
each state is found to arrange the
picnic. It is a good thing to know
people from your native state
live around you, and these states
are bringing about a friendly spirit.

Some East Texas Peaches.
The Center Champion has sent this
year two peaches and they are
peaches, one weighing ten
pounds and the other eight. They are
checked and luscious looking,
demonstrate that East Texas
peaches are good looking fruit of some
importance. There were two of
peaches, as has previously been
stated, and not two bushels or two
dozens, as there are five in the
family, it is hard to decide
to divide them even though
they are large enough to be divided
into parts each.

Port Cotton Crop in Texas.
The cotton in Texas have been spotted
in some sections but little cot-
ton is coming up. This is particu-
larly true of Central Texas, always re-
garded as a favored cotton section.
Farmers generally agree that where
the crop is up and growing at all
they only hope for it in the dry sec-
tion is frequent shallow plowing
keeping the soil pulverized,
where it is most thrifty it will
be in better condition by free-
plowing.

WILLIAM JENNINGS BRYAN DEAD.

William Jennings Bryan, thrice the
democratic candidate for president
of the United States, Secretary of
State under the Woodrow Wilson ad-
ministration, and noted chautauqua
lecturer, was found dead in bed at
the home of a friend at Dayton, Ten-
nessee, at 5:00 o'clock Sunday after-
noon. As all newspaper readers
know, Mr. Bryan was in Dayton as
one of the prosecution counsel in the
famous evolution case which was re-
cently on trial in the Tennessee city.

After partaking of a hearty dinner
Mr. Bryan retired to his room for a
nap; not arising at his usual time, his
chauffeur was sent to call him, and
found him dead. His death was at-
tributed by physicians called to
either apoplexy or heart failure.

Mr. Bryan visited Hondo some
dozen years and delivered his famous
lecture, "The Prince of Peace," at
the auditorium, his appearance here
being under the auspices of the Hon-
do Mothers Club.

Deceased had been an active figure
in American politics for the past
quarter of a century and perhaps had
a larger personal acquaintance than
any other one man in the United
States. He was in reality the leader
of the prohibition movement in this
country.

As an orator he probably had no
peer in this country and an an-
nouncement for his appearance al-
ways assured a tremendous audience.
His body will rest in Arlington, the
national cemetery at Washington, he
holding the rank of colonel in the re-
serves. His funeral occurred yester-
day.

As a politician he possibly had
more detractors than any other man
in the country. However, all recog-
nized him as a great American and
his passing has caused universal sor-
row to all the people of his native
country.

FLEECE BY 2, NEGRO CAMPS UPON TRAIL.

Pair, After Fake Betting, 'Borrow' \$110 From Hondo Victim.

Jess Willis of Hondo, negro vic-
tim of an ancient bunco trick which
cost him \$110 Tuesday morning en-
camped himself at police headquar-
ters to await the arrest of two other
negroes who he said took his money.
"If they have it I'm going to get
it out of them," he told police offi-
cers, "if they don't have it they'll
wish they did."

It is believed the two bunco men
are the same who two weeks ago
fleece the treasurer of a negro
church out of \$15.

Bunco Men Claim to be Strangers.

Willis was walking on West Com-
merce street toward the Santa Rosa
Infirmary where his wife and two
children are patients. He was stop-
ped by the two bunco men, who told
him they were strangers and looking
for the wife of one of them, whom
they said had been stolen. Willis
was offered \$15 by each of the men
to assist the "strangers" in the
search.

Before the search started the two
strange negroes skillfully introduced
an argument as to whether or not a
negro could draw money out of a
bank in Texas. They said he could
not, and bet three to one he could
not.

Draws All Money from Hondo Bank.

Willis went to a bank, had the
cashier phone his bank at Hondo and
then proceeded to draw out all his
money, \$110. He won the bet, but
payment was delayed until the three
reached the country in an auto-
mobile. The two "strange" negroes
then engaged in a game of tricks,
betting against each other. One
went broke and borrowed the \$110
from Willis. With his money in
their possession one of the men got
out of the car to get some cigars and
the other speeded further into the
country with Willis as passenger.

The Hondo negro at this juncture
figured something was wrong. He
was made sure of this when his com-
panion would not let him out of the
car, whereupon he jumped out. He
was bruised about the body, but
went to police headquarters instead
of the hospital.

He said he was going to wait there
until police brought in the two negro
bunco men.—San Antonio Evening
News.

P. LEAGUE FEDERATION MEETING.

WITH THE DRILLERS.

Quite a ripple of excitement was caused in Hondo last week-end when word reached here that a core had been taken in the Blackburn well of the Ina group, and the possibility of a big strike was decidedly promising. In fact, men who had grown old in the oil game long before an oil pool had even been dreamed of in this section, who were present and even assisted in taking the core declared they had seen tremendous wells come in with a less promising core. This core was taken in the Georgetown-Edwards, at around 1860 feet, and unless the judgment of old and experienced oil men are at fault, this well will put Medina County on the map as the coming field of Southwest Texas. On the advice of these men the drill was stopped and reaming started for the purpose of setting casing. This reaming has proved a rather slow process owing to the formation. When completed and casing set the well will be drilled in, and if the judgment of experienced oil men counts for anything the best oil well in Medina County will be an established fact.

This is the first of the Ina group to be carried down to the Edwards, and the finding of possible producing in that formation is what is causing concern to oil men. They claimed that all precedents indicate generous production. If this well comes in as a producer, and of this oil men seem certain, then the proven territory will be extended about one and a quarter miles to the North-east. Should the judgment of oil men prove correct, and a large producer be brought in, then we understand it is the purpose of the Ina Company to sink all their wells to the Edwards. It will possibly be some ten days or two weeks before the well will be drilled in, and in the meantime Blackburn No. 1 will be the center of interest in our oil field.

Wilson No. 1, being drilled by Eastham & Tarver, is down around 500 feet. Some difficult drilling has been encountered in this well, but it is now thought the greatest of the obstacles have been passed and easy drilling will be encountered from now on in the drills downward course to the oil sand. No one has any doubt as to the outcome of this well. It is in proven territory and everyone feels certain a good production will

follow around 1,000 feet. This well, barring all accidents, should be on the pump in some ten or fifteen days, and its production is placed around twenty-five barrels.

The Comodore Oil Co., on the Nixon ranch, we understand picked up an oil sand around twelve hundred feet, and is now resting, waiting instructions from the promoters. We are not informed as to the indications at this well, whether or not profitable production has been found.

The Keifer well, on the Adams ranch, we understand has set casing, and every indication points to a profitable well. This well extends the proven field several miles south.

The Arnett Oil Co. No. 2, which has been standing for sometime, has received a delayed shipment of casing, which is now being set. This well is also in proven territory. The question is not as to the finding of oil, but how much. We understand the oil in this well is of the highest gravity thus far found in any of the wells in the Ina territory.

The only discordant news in connection with our oil field is the abandonment of the No. 1 Haegelin, which was being drilled by the Medina Oil Co. This well, drilled down to around 1,900 feet, and about fifty feet into the Edwards, failed to pick up pay, and we understand casing is being pulled. This location carried the very highest geological endorsement, and everyone hoped and believed pay production would be found. Mr. Johnson, who has had the management of the well since its inception, has done everything humanely possible to find oil, and he has the sympathy of everyone in his failure. He has carried out his contract to the letter and no criticism attaches to him for the failure. We are not advised as to his future plans but everyone trusts he will conclude to continue in this field, as it takes men of his intelligence, energy and determination to develop an oil field.

His Honor, Judge A. M. Lamm, who has been chief justice of Precinct No. 1, from a period in the distant past to which the memory of no man runneth, will doff his judicial toga at the end of his present term and retire to private life. The reasons assigned by his honor for his retirement is his advancing years, and his hearing not being as accurate as it once was, hence his desire to step down and out. Mr. Lamm will have passed the eighty-fifth mile post of his life before the expiration of his present term, and he feels that he has worked long enough. Of course he feels deeply grateful to the loyal friends who have so faithfully supported him in his long tenure of office, and the memory of this partiality he treasures, more than the emoluments of the office he has so long held.

Only dirt trails lead to these spots; trails hard to travel—save in a Ford. To the Ford they are all open.
Because a Ford Car, light yet powerful, comes easily through the hardest going.
Let your Ford take you away from the crowds this summer—into peaceful solitudes, where you can take your fill of beauty undisturbed. Venture without fear—it will carry you where you will; safely, easily and comfortably.
